A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/1/03 has been entered. Claims 51-59, 61-64, and 66-71 are being considered on the merits.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103[®] and potential 35 U.S.C. 102(f) or (g) prior art under 35 U.S.C. 103(a).

Claims 51-56, 58-59, 61-64, and 67-71 are/remain rejected under 35 U.S.C. 103(a) as being unpatentable over Hata taken with Paul and Hansen and further taken with Long and ATCC Catalogue of Bacteria for the reasons as stated in the last Office action and the further reasons below.

Claims 57, and 65-66 are/remain rejected under 35 U.S.C. 103(a) as being unpatentable over Hata taken with Reid for the reasons as stated in the last Office action and the further reasons below.

Response to Arguments

Applicant's arguments and Dr. Fisgus have been fully considered but they are not deemed to be persuasive.

The results of the Declaration are directed to 400 million colony forming units per dose of *B. coagulans* and 3000 units of lactase per dose and a preparation designated "Digestive Advantage". The particular strain of *B. coagulans* used is not revealed. The claims, on the other hand, are devoid of limitations regarding the use of any amounts, including the touted amounts, except for claim 71 which comprises 200 IU of lactase, the correlation of which with the 3000 units used in the declaration is not readily ascertainable. Moreover, the precise nature

Art Unit: 1651

of the lactase and further ingredients in the composition comprised by "Digestive Advantage" is not disclosed. Also, the results presented pertain to "lactose intolerance" and there is no indication that even the specific composition tested is suitable to "increase the bioavailability of nutrients in a mammal", as claimed in claims 51-57, 61-64, 66-67. Therefore, the declaration is not probative of the effects of the claim designated composition and the particular method of use thereof claimed.

The scope of the showing must be commensurate with the scope of claims to consider evidence probative of unexpected results, for example. In re Dill, 202 USPQ 805 (CCPA, 1979), In re Lindner 173 USPQ 356 (CCPA 1972), In re Hyson, 172 USPQ 399 (CCPA 1972), In re Boesch, 205 USPQ 215, (CCPA 1980), In re Grasselli, 218 USPQ 769 (Fed. Cir. 1983), In re Clemens, 206 USPQ 289 (CCPA 1980). It should be clear that the probative value of the data is not commensurate in scope with the degree of protection sought by the claim.

Therefore the rejection is deemed proper and it is adhered to.

No claim is allowed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Irene Marx whose telephone number is (703) 308-2922. The examiner can normally be reached on Monday through Friday from 6:30 AM to 3:00 PM.
